7.2	Conditions for safe storage, in Keep container tightly closed in a Recommended storage temperat	dry and well-ventilated place. Store in cool place.	
7.3	Specific end use(s) Apart from the uses mentioned ir	section 1.2 no other specific uses are stipulated	
SECTION	8: Exposure controls/personal	protection	
8.1	Control parameters		
	Components with workplace co	ontrol parameters	
8.2	Exposure control		
	Appropriate engineering control Handle in accordance with good end of workday.	ols industrial hygiene and safety practice. Wash hands before breaks and at the	
	Personal protective equipment.		
	<b>Eye/face protection</b> Safety glasses with side-shields conforming to EN166 Use equipment for eye protection tested and approved under appropriate government standards such as NIOSH (US) or EN 166(EU).		
	Skin protection Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.		
	The selected protective gloves have to satisfy the specifications of Regulation (EU) 2016/425 and the standard EN 374 derived from it.		
	<ul> <li>Body Protection         Impervious clothing, The type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace.     </li> <li>Respiratory protection         Where risk assessment shows air-purifying respirators are appropriate use a fullface respirator with multipurpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).     </li> <li>Control of environmental exposure         Do not let product enter drains.     </li> </ul>		
SECTION	9: Physical and chemical prope	rties	
9.1	Information on basic physical	and chemical properties	
	Appearance Form	Form: liquid	
	Odour	Unpleasant	
	Odour Threshold	No data available	
	рН	No data available	
	Melting point/freezing point	No data available	
	Initial boiling point and boiling range	No data available	
	Flash point	No data available	

	Evaporation rate	No data available	
	Flammability (solid, gas)	No data available	
	Upper/lower flammability or explosive limits	No data available	
	Vapour pressure	No data available	
	Vapour density	No data available	
	Relative density	0,848 g/cm3 at 20 °C	
	Water solubility	No data available	
	Partition coefficient: noctanol/water	No data available	
	Auto-ignition temperature	No data available	
	Decomposition temperature	No data available	
	Viscosity	No data available	
	Explosive properties	No data available	
	Oxidizing properties	No data available	
9.2	Other safety information	No data available	
SECTION	10: Stability and reactivity		
10.1	Reactivity No data available		
10.2	Chemical stability           Stable under recommended storage conditions.		
10.3	Stable under recommended storage conditions.         Possibility of hazardous reactions         No data available		
10.4	Conditions to avoid		
10.5	No data available Incompatible materials		
10.6	Strong oxidizing agents         Hazardous decomposition products         Hazardous decomposition products formed under fire conditions Carbon oxides, Sulphur oxides         Other decomposition products - No data available         In the event of fire: see section 5		
SECTION	11: Toxicological information		
11.1	Information on toxicological eff Acute toxicity No data available Skin corrosion/irritation No data available Serious eye damage/eye irritation No data available Respiratory or skin sensitisation No data available	on	
Page 4 of	Germ cell mutagenicity		
age 4 01	U		

	No data available		
	<b>Carcinogenicity</b> IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen by IARC.		
	Reproductive toxicity No data available		
	Specific target organ toxicity - single exposure No data available		
	Specific target organ toxicity - repeated exposure No data available		
	Aspiration hazard No data available		
	Additional Information RTECS: Not available		
	To the best of our knowledge, the chemical, physical, and toxicological properties have not been thorough investigated.	ıly	
SECTION	12: Ecological information		
12.1	Toxicity		
12.2	No data available         Persistence and degradability         No data available.		
12.3	Bioaccumulative potential		
12.4	No data available.         Mobility in soil         No data available		
12.5	<b>Results of PBT and vPvB assessment</b> This substance/mixture contains no components considered to be either persistent, bioaccumulative and toxic (PBT), or very persistent and very bioaccumulative (vPvB) at levels of 0.1% or higher.		
12.6	Other adverse effects No data available		
SECTION	13: Disposal considerations		
13.1	Waste treatment methods		
	<b>Product</b> Offer surplus and non-recyclable solutions to a licensed disposal company. Waste material must be dispo of in accordance with the Directive on waste 2008/98/EC as well as other national and local regulations. Leave chemicals in original containers. No mixing with other waste. Handle uncleaned containers like the product itself.		
	Contaminated packaging Dispose of as unused product.		
SECTION	14: Transport information
